

Materials

- Stationary
- Rotary
- Elastomer
- Car / SiC / SSiC / TC
- SiC / SSiC / TC
- NBR / EPDM / Viton / Aflas / FFKM

Working Conditions

- Pressure
- Speed
- Temperature up to 205°C
- ≤ 40 bar
- ≤ 25 m/s
-

Features

- Stationary design
- Monolithic faces
- Cushioned faces
- Pressure balanced
- Spring outside the media
- Floating quench
- Optional hydro pads

Inch ØD	Code	L1		L2		L3

S175A Gland

- Details to be confirmed by customer:
- Gland OD
- Stuffing Box Bore
- Hole size (Stud size)
- Hole/Stud PCD
- Number of Bolts/Studs

Optional Hydro Pads
